French Oak

Premium Engineered Flooring

Product Code: NT-F0.01

Premium quality, bonded to a multi-directional, plywood substrate for ultimate stability and dimensional accuracy, finished in a high quality, natural timber oil coating, eight bespoke colours available, backed by a structural warranty. NT-F0.01 is a floor for life.

Technical Specifications

- Ethically sourced from purpose-grown, sustainably-managed plantation forests
- Super single 6mm solid timber French Oak top layer
- Can be installed over concrete or plywood
- Compatible with underfloor heating
- Prefinished (or option to finish on-site available) in our high quality, natural timbercare oils
- Superior stability
- Solid TG profile, wire brushed with 1mm micro bevel edge
- Climatically moisture balanced to 12% (machine factory coat or finishing kits can be supplied for DIY application)
- End-matched and side matched for efficient installation with lower waste percentages
- 8 natural earthen colours available through oil colour finishing
- Both the 15mm and 20mm backed by our 20 year warranty
