Garapa

Decking

Product Code: NT-GA.03

The king of hardwood decking timbers. An all-round high performer when a fine hardwood decking timber is required. FSC accredited sustainability, excellent stability and durability. Graded to be almost defect-free, and available in a 140mm wide board and an excellent alternative to the likes of Kwila (where leaching, cupping or splinters are a concern). Garapa is an excellent choice to meet all the expected requirements of a decking timber.

Garapa NT-GA.03

Technical Specifications

- Kiln dried to 12% m.c
- World class FSC sustainable harvesting processes
- Naturally weathers to a silver patina

LIVING WOOD

LivingWood signifies compliance with the highest standard of sustainable product sourcing and processing. Where possible, our timbers are naturally treated to achieve outstanding products which use far less chemicals than previously possible.

This guarantees a healthier product, a healthier building and therefore a healthier environment, for you and your family.

All New Zealand Natural Timber Co. products have the LivingWood seal of approval.
