## Kahurangi Windblown Rimu Flooring

-----  
**Product Code: NT-RI.01**  
 -----

The New Zealand Natural Timber Co. have a rare opportunity to access a small percentage of Kahurangi windblown Rimu which was felled by Cyclone ITA in 2014, leaving large areas of the Kahurangi National Park devastated. Government legislation allowed a portion to be sustainably heli-harvested for the New Zealand market. The New Zealand Natural Timber Co. offers a special cut of log grade—the Kahurangi Rimu—which maximises best utilisation of the log, ensuring minimal waste. Kahurangi Rimu has an unmatched and distinctively wild appearance due to the extreme nature of the tree's life on the rugged West Coast of the South Island. Kahurangi Rimu floors provide a unique aesthetic, coupled with our range of natural timbercare oils and a variety of surface finishing techniques, to create a stunning, individual flooring solution.

Rimu NT-RI.01

# Technical Specifications
